Synot Liga

38 apps | 14 goals | 3 assists | 6 yellow cards

International experience

2011 – ...

CZECH REPUBLIC

International youth teams (U16 until U21)

42 apps | 25 goals | 11 goals in 12 games with U21

Current & Potential Level

Patrik Schick (20) is a young centre forward who currently plays for Sparta Prague in his home country, Czech Republic. Last season, he joined Bohemians 1905 on loan and became an important player for the 9. ranked team in the Synot Liga (1. League), scoring 7 goals in 27 games. Schick is a striker with high potential. He is athletic, fairly quick and solid in the aerial duels. Mainly, he plays as a target striker but he is also able to play on the left wing due to his speed.

Schick has an excellent technique and dribbling skills, which is quite unusual with his height. Also very solid in the combination with the midfield. Finally, he has a decent score on his mental attributes. Schick works very hard for his team and has a winning mentality. At his young age, there is still room for improvement. I personally believe he should work more on his finishing skills and his first touch. In the past, we have witnessed transfers of some talented Czech players to the Italian Serie A.

I will not be surprised if Schick is the next player who will join a team in the highest league of Italy. In terms of potential, he could become a good player for the Serie A in the future, but it would not be a bad idea to stay at Sparta Prague for an extra season to keep on progressing.
