## Current & Potential Level

Carlos Eduardo Ferreira de Souza is a 20-year-old right winger who currently plays for Goiás EC in the Brazilian Serie B. Despite the fact that Carlos Eduardo is the youngest player in the first team, he is also by far the best and most talented player in the squad of Goiás.

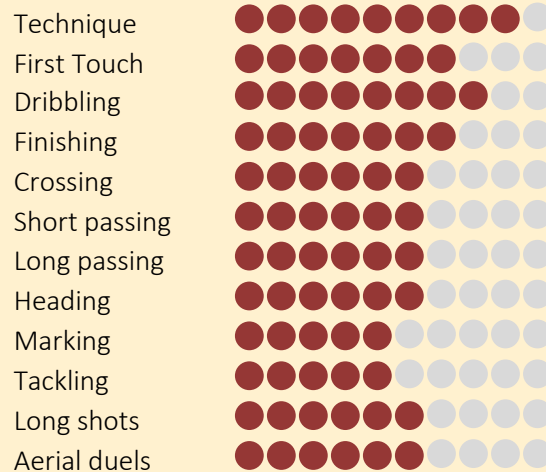

The speedy Brazilian winger has a phenomenal technique and excellent acceleration. His solid dribbling skills make it easy for him to pass his opponents in one on ones. His creativity allows him and his team to create opportunities out of nowhere.

Carlos Eduardo scores high ratings on both his technical and physical attributes, but needs to work more on his mental attributes. To become successful in Europe, he needs to become more of a team player in the future.

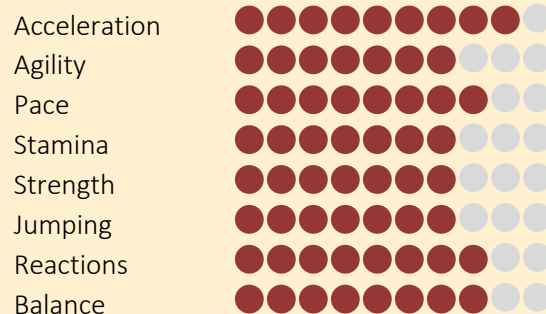

This talented and technically gifted player could become a star in Europe if he makes the right career choices. I believe he would already be a key player for any top team in the Belgian Jupiler League or the Dutch Eredivisie at this moment.
