## Current & Potential Level

John McGinn is a 23-year-old left-footed central midfielder who currently plays for Hibernian FC in the Scottish Premiership. He also represents the national football team of Scotland since 2017.

McGinn scores excellent ratings on several physical attributes, such as his stamina, balance and strength. He is a hard-working midfielder with a solid left foot. His crossing and passing skills on both short and long distances are highly regarded. He can play with his right foot as well. McGinn is not the most technical gifted player, but makes up for that with his excellent mental attributes, such as his determination.

I expect McGinn to leave Hibernian in the upcoming transfer period or after this season. He would be a good signing for a top team in the English Championship or perhaps for Celtic if he chooses to stay in Scotland.
